PROJECTS

HUMAN AI SAAS PLATFORM NEXT JS , TAIWIND CSS , SHADCN UI , TYPESCRIPT, PRISMA ORM , MONGODB , OPENAI , REPLICATE , STRIPE , CLERK JS

Human ai is an saas platform that gives a new user 5 free ai generations ,authentication is done using clerk js database handling is smoothly done using prisma orm and next js server actions after 5 free generations completion the use wont able to prompt the human ai once he upgrades to pro plan he can continue.

AIRBNB CLONE NEXT JS , TAIWIND CSS , SHADCN UI , TYPESCRIPT REACT LEAFLET, PRISMA ORM , MONGODB , CLERK JS , EDGESTORE ,ZOD, REACT-HOOK-FORM ETC.

Airbnb clone is one of my hobby project that i worked on I utilizes the power of Next js 13 with flexibility of prisma orm and mongodb , and for designing this clone i used tailwind css and shadcn so that enables to more focus on the logic as compared to designing besides this project includes listing of properties , deletion of properties etc features and for mapping i used React leaflet.

MULTIPURPOSE ECOMMERCE WEBSITE NEXT JS , TAIWIND CSS , SHADCN UI , TYPESCRIPT, PRISMA ORM , MONGODB , CLERK JS , CLOUDINARY , ZOD , REACT-HOOK-FORM ETC.

This mutlipurpose store is an scalable project that enables the ecommerce store owner to list multiple categories of products at a single time . besides that the admin panel is also scalable we can use one single admin panel for multiple store by simply switching it from one store another store this feature is a toggle dropdown menu.
